DETAILED ACTION

Response to Amendment

The applicant's amendment received 7-12-2005 overcomes the primary examiner's prior art rejection. **Hence claims 1, 3-4, 7-8, 10-13, 16 and 19-20 are allowed.** Claims 2, 5-6, 9, 14-15, 17-18 are cancelled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. The applicant amended per the recommendations of the primary examiner who believes the claims to be novel in his opinion. The claims recite highly specific designs while requiring an application broker to, among other things, determine/read a user's identity:

“...an application broker configured to monitor control signaling between the lower layer protocol engine and the upper layer application processing component **and to read a user's identity...**”

None of the prior art cited discloses an application broker that performs the disclosed tasks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
